

# Safety Data Sheets

## Quinacridone violet Pv19

Product code: PS-OR0045

Department: organic dry pigments

C.A.S. : 1047 16 1

### Section: 1 Identification

C.I. Name: Pigment violet 19  
Use of the substance/preparation: Artists paints, colouring of coatings, inks and plastics.

Company supplying the SDS: KAMA pigments  
Address : 7442 St-Hubert Montréal Québec, H2R 2N3  
phone : 514 272 2173  
email : info@kamapigments.com

### Section: 2 Hazard Identification

#### Emergency Overview

When exposed to extremely high temperatures for extended periods of time (such as a fire), organic pigments may burn or smolder emitting noxious fumes that can include nitrogen and carbon dioxides or other toxic compounds.

#### HGS Label Elements

#### Signal Word

#### GHS Classification

The product does not require a hazard warning label in accordance with GHS criteria.

#### Hazard statements

No known significant effects or critical hazards.

#### Precautionary Statements

Do not handle until all safety precautions have been read and understood.

P260 Do not breathe dust.

P281 Use personal protective equipment as required.

P391 Collect spillage.

P403 + 233 Store in a well-ventilated place. Keep container tightly closed.

### Section: 3 Composition / Information on Ingredients

| INGREDIENT        | CAS No    | EINECS    | WT. % | HAZARDOUS |
|-------------------|-----------|-----------|-------|-----------|
| Pigment violet 19 | 1047-16-1 | 213-879-2 | 100   | no        |

---

## Section: 4 First Aid Measures

### Necessary Measures:

|               |   |
|---------------|---|
| Inhalation:   | Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.                      |
| Ingestion:    | Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately. |
| Skin Contact: | Wash skin thoroughly with soap and water. Remove contaminated clothing and shoes. Get medical attention if irritation persists.                         |
| Eye Contact:  | Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.   |

### Symptoms / Effects:

|   |  |
|---|--|
| Inhalation:                             | Inhalation of dusts may irritate the nose, throat and upper respiratory tract. In severe cases, remove to fresh air immediately. Call physician. |
| Ingestion:                              | No significant effects.  |
| Skin Contact:                           | May cause skin irritation if in contact for extended periods of time.  |
| Eye Contact:                            | The more common hazards are local irritation or abrasion.  |
| Chronic Exposure:                       | None known   |
| Aggravation of Pre-existing Conditions: | None known   |

---

## Section: 5 Fire Fighting Measures

|                           |  |
|---------------------------|--|
| Fire:                     | Not considered to be a fire hazard.  |
| Explosion:                | Not considered to be an explosion hazard. Sealed containers may rupture when heated.                                       |
| Fire Extinguishing Media: | Use any means suitable for extinguishing surrounding fire. Carbon dioxide, dry chemical, water spray or foam are suitable. |
| Fire Fighting Equipment:  | Wear self-contained breathing apparatus and protective suit.   |

---

## Section: 6 Accidental Release Measures

|  |   |
|--|---|
| For non-helpers<br>Protective equipment  | Avoid inhalation and ingestion. Avoid contact with skin, eyes and clothing.   |
| For rescuers<br>Protective equipment   | Wear clothing for full protection. Wear self-contained breathing apparatus.   |
| Environmental precautions<br>Methods and material for containment and cleaning | Prevent contamination of soil, sewers and surface water.  |
| Cleaning Procedures  | Avoid the formation of dust by sucking effectively to a filter or method of cleaning or wet filtration. Collect in a suitable container (with correct labeling). Collect the waste in an appropriate container, it must be labeled and sealed. Do not wash with other products. Wear self-contained breathing apparatus and suitable protective clothing. |

---

## Section: 7 Handling And Storage

|           |  |
|-----------|--|
| Handling: | Observe all warnings and precautions listed for the product. Closed containers should be opened in well ventilated areas. Avoid dust formation. Take precautionary measures against static discharges. |
| Storage:  | Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage.   |

---

## Section: 8 Exposure Control/Personal Protection

|  |  |
|--|--|
| For Nuisance Dust:                     |  |
| OSHA Threshold Limit Value (TLV):      | 10 mg/m <sup>3</sup> TWA Nuisance Dust   |
| Ventilation System:                    | A system of local and/or general ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. |
| Personal Respirators (NIOSH Approved): | Use NIOSH approved respirator as needed to mitigate exposure.  |
| Skin Protection:                       | Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.   |
| Eye Protection:                        | Safety glasses with side shields. Maintain eye wash fountain in work area.   |

---

## Section: 9 Physical and Chemical Properties

|                              |                |
|------------------------------|----------------|
| Appearance:                  | Violet powder  |
| Vapor Density (Air=1):       | Not applicable |
| Odor:                        | Odorless       |
| Melting Point:               | N/A            |
| Solubility:                  | Insoluble      |
| Vapor Pressure (mm Hg):      | Not applicable |
| Specific Gravity:            | 1.6            |
| % Volatiles by volume:       | Not applicable |
| pH:                          | 6.5 – 8.5      |
| Evaporation Rate (BuAc = 1): | Not applicable |
| Boiling Point:               | N/A            |
| Self ignition temperature    | > 400 °C       |

---

## Section: 10 Stability And Reactivity

|                                   |   |
|-----------------------------------|---|
| Stability:                        | Stable under ordinary conditions of use and storage.                        |
| Hazardous Decomposition Products: | When involved in a fire, burning organic pigments may evolve noxious gases. |
| Hazardous Polymerization:         | Will not occur.   |
| Incompatibilities:                | Strong reducing agents, combustibles, and organic materials.                |
| Conditions to Avoid:              | Incompatibles.  |

---

## Section: 11 Toxicological Information

|                         |   |
|-------------------------|---|
| Toxicological Data:     | This product has reported an acute LD <sub>50</sub> value of 5000 mg/kg or greater in rats. |
| Primary Irritation:     | Non-classified skin and eyes (rabbit)   |
| Reproductive Toxicity:  | Not available   |
| Cancer Lists Ingredient | No known carcinogen are present.  |

---

## Section: 12 Ecological Information

|                               |  |
|-------------------------------|--|
| Ecology - general             | No data available.                                 |
| Persistence and degradability | No data available.                                 |
| Bioaccumulative potential     | No data available.                                 |
| Mobility in soil              | Non-volatile, insoluble in water, floats on water. |
| Ecology - soil                | No data available.                                 |
| Other adverse effects         | No additional information available.               |

---

## Section: 13 Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste facility. Dispose of container and unused contents in accordance with federal, state and local requirements.

---

## Section: 14 Transport Information

U.S. Department of Transportation (D.O.T.)  
International Maritime Dangerous Goods ( I.M.O. / I.M.D.G.)  
International Air ( I.C.A.O. / I.A.T.A.)  
Proper Shipping Name: Not Regulated  
UN Number: none  
Class: none  
Packing Group: none

---

## Section: 15 Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

According to corresponding national regulations and available test data, there is no labelling requirement for this product., Toxicological data proves that this product is a non-irritant.

### CANADA

WHMIS Classification Uncontrolled product according to WHMIS classification criteria  
Listed on the Canadian Domestic Substance List (DSL) Inventory

### USA

SARA Section 313 No reporting requirements for this product.  
Listed on the United States Toxic Substance Control Act (TSCA) Inventory

---

## Section: 16 Other Information

|                    |                    |
|--------------------|--------------------|
| HMIS Information:  | NFPA Information:  |
| Health: 1          | Health: 1          |
| Flammability: 1    | Flammability: 0    |
| Physical Hazard: 0 | Physical Hazard: 0 |

HMIS and NFPA uses a numbering scale ranging from 0 to 4 to indicate the degree of hazard. A value of zero means that the substance possesses essentially no hazard; a rating of four indicates extreme hazard. Although similar, the two ratings systems are intended for different purposes, and use different criteria.

HMIS system – designed to communicate workplace hazard information to employees who handle hazardous chemicals.

NFPA system – developed to provide and on-the-spot alert to the hazards of a material and their severity, to emergency responders.
