

Material Safety Data Sheet

Spike Lavender oil

Product Code: SO-AS0010

Department: other binders and additives

C.A.S.:

KAMA
PIGMENTS

Section: 1 Identification

product name:	lavender oil type natural
synonym:	none
product use:	flavor, fragrance, solvent

Section: 2 Hazard Identification

CAS number:	not applicable
EINECS number:	not applicable
FEMA number:	not applicable

SGH Label Elements

Signal Word

attention

GHS Classification

Flammable liquids -Cat.3

Skin corrosion -irritation -Cat.2

Skin sensitization -Cat.1

Hazard Statements

Flammable liquid and vapor (H226)

Causes skin irritation (H315)

May cause allergic skin reaction (H317)

Precautionary Statements

Keep container tightly closed.

Ground and bond container and receiving equipment.

Use explosion-proof electrical/ventilating/lighting/ equipment.

Use non-sparking tools.

Take action to prevent static discharges.

Contaminated work clothing should not be allowed out of the workplace.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.

Specific treatment (see ... on this label).

If skin irritation or rash occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

In case of fire: Use ... to extinguish.

Store in a well-ventilated place. Keep cool.

Section: 3 Composition / Information on Ingredients

physical and chemical hazard:

refer to the paragraphs relating to physico-chemical properties and regulatory information.

hazards to man:

refer to the paragraphs relating to toxicological data and regulatory information.

hazards to the environment:

refer to the paragraphs relating to ecological data and regulatory information.

Section: 4 First-Aid Measures

skin contact:

wash with large quantities of water (or water + soap). remove contaminated clothes. if irritation persists or any sign of tissue damage is apparent, obtain medical advice.

eye contact:

irrigate copiously with water for at least ten minutes. obtain medical advice if irritation or evidence of tissue damage persists.

ingestion:

rinse mouth with water. obtain immediate medical advice. do not induce vomiting.

inhalation:

remove the person to fresh air and keep at rest. obtain medical advice immediately.

Section: 5 Fire-Fighting Measures

extinguishing media:

recommended:

carbon dioxide, special liquid or dry powder extinguishers.

usable:

foam extinguishers.

inadvisable:

direct water jet.

unusual fire and explosion hazards:

closed containers may build up pressure at elevated temperatures. if possible, containers should be cooled with a water spray.

Section: 6 Accidental Release Measures

To avoid a possible contamination of the environment, contain spilled material.

cover with an inert, inorganic, non-combustible absorbent material, sweep up and remove to an approved disposal container.

Dispose of in accordance with federal, state and local environmental regulations. Avoid open flames or other sources of ignition. avoid inhalation of vapors.

Section: 7 Handling And Storage

Handling	measures should be taken to prevent materials from being splashed into the eyes or on the skin. this should include the wearing of eyeshields and protective clothing. smoking should not be permitted in areas where they are handled. spontaneous combustion of certain product soaked rags have been reported.
storage:	maintain adequate air circulation in the working area. store in tightly sealed and preferably full containers in a cool, dry location. protect from light. check quality before use if stored for more than 6 months. keep in suitable or original container

Section: 8 Exposure Control/Personal Protection

respiratory protection:	in well-ventilated areas, respiratory protection is not normally required. in confined, poorly ventilated areas, it may be required.
hand protection:	the use of chemical resistant gloves is recommended
eye protection:	the use of safety glasses is recommended
skin protection:	light protective clothing is recommended.
ventilation:	provide adequate ventilation; use local exhaust fan if necessary.

Section: 9 Physical and Chemical Properties

appearance:	liquid
color:	colorless to yellow
odor:	characteristic (odor threshold: not determined)
flash point (cc) (°C):	69 °C
water solubility:	insoluble
specific gravity (25 °C):	0.8780 (typical)
refractive index (20 °C):	1.4605 (typical)
boiling point:	>35 °C
melting point:	not determined
freezing point:	not determined
vapor pressure:	not determined
vapor density (air=1):	not determined
partition coefficient n-octanol/water:	not determined
self-ignition temperature:	not determined
ph:	not applicable
evaporation rate:	not determined

Section: 10 Stability And Reactivity

stability:	stable
condition to avoid:	excessive heat, open flames or other sources of ignition.

Section: 11 Toxicological Information

liquid may be irritating to skin and eyes.

Section: 12 Ecological Information

no ecotoxicologic information known at this time
avoid any pollution of ground, surface or underground water.

Section: 13 Disposal Considerations

dispose of in accordance with federal, state and local environmental regulations.

Section: 14 Transport Information

UN number:	not applicable
RID/ADR, IMDG, ICAS/IATA:	not applicable
marine pollutant:	not determined

Section: 15 Regulatory Information

WHMIS classification: D2B / B3 combustible liquid
this product has been classified according to the hazard criteria of the cpr and the msds contains all the information required by the cpr.

Section: 16 Other Information
